# Alex Example

Platform engineer: reliable services, clear operations, calm releases

e2e-alex@example.org +33 6 00 00 00 00 Lyon, France example.org/alex

## PROFILE

Platform engineer who designs, ships and operates the services other teams build on. Turns fragile manual steps into automated, observable pipelines, and writes the runbook before the incident rather than after it.

### SELECTED ACHIEVEMENTS

- Moved release preparation into one automated pipeline
- Ran the on call rotation of the deployment platform
- Introduced typed contracts between teams

### KEY COMPETENCIES

- Service design
- Release engineering
- Observability
- Incident response
- Infrastructure as code
- Developer experience
- Technical writing
- Mentoring

## EXPERIENCE

**Senior Platform Engineer,** Example Corp — February 2023 to present

Lyon, France

- Runs the deployment platform that every product team ships through, from the first commit to the production rollout.
- Replaced a hand kept release checklist with an automated pipeline that tests, packages and announces each release.
- Wrote the operating guides of the platform and trained the teams that took over its daily care.

**Software Engineer,** Sample Labs — September 2020 to January 2023

Grenoble, France

- Built the internal services of the measurement product.
- Moved the test suite to parallel runs.
- Wrote the first monitoring dashboards.

## EDUCATION

**MSc Computer Science**
Université Exemple
2018 to 2020

**BSc Mathematics**
Institut Échantillon
2015 to 2018

## SKILLS

### LANGUAGES

Python, Go, SQL, TypeScript

### PLATFORM

Kubernetes, Terraform, PostgreSQL, Redis

### OBSERVABILITY

Prometheus, Grafana, OpenTelemetry

### PRACTICES

Code review, Runbooks, Postmortems

## LANGUAGES

**French**: native **English**: fluent **German**: intermediate
