Alex Example

Platform engineer: reliable services, clear operations, calm releases

e2e-alex@example.org | +33 6 00 00 00 00 | Lyon, France | example.org/alex | code.example.org/alex

PROFILE

Platform engineer who designs, ships and operates the services other teams build on. Known for turning fragile manual steps into automated, observable pipelines, and for writing the runbook before the incident rather than after it.

SELECTED ACHIEVEMENTS

- Cut release preparation from days to an hour
- Owned the on call rotation of three services
- Introduced typed contracts between teams

KEY COMPETENCIES

Service design, CI and CD, Observability, PostgreSQL, Kubernetes, Incident response, Python, Technical writing

EXPERIENCE

Senior Software Engineer, Example Corp
February 2023 to present
Lyon, France

- Designed the internal deployment pipeline used by every product team, with staged rollouts, automatic rollback and a release note generated from the merged changes.
- Led the move of the billing services to managed Postgres, rehearsed twice on copies of production before the cut over weekend.
- Wrote the incident playbook and ran the reviews after each outage, turning each finding into a tracked change.
- Published the service catalogue at Example-Corp-Platform-Service-Catalogue-https://catalogue.internal.example.org/platform/services/overview/with/a/very/long/path/that/never/breaks so every team finds its owners.

Software Engineer, Sample Labs
September 2020 to January 2023
Grenoble, France

- Built the metrics stack with dashboards per team and alerts that page only on user impact.
- Maintained the shared Python libraries and their release process.
- Automated the onboarding of new engineers from a script and a checklist.

Engineering Intern, Demo Industries
February 2020 to July 2020
Annecy, France

- Wrote a test harness for the factory floor data collectors.

EDUCATION

MSc Computer Science
Université Exemple
2018 to 2020

BSc Mathematics
Institut Échantillon
2015 to 2018

SKILLS

Languages: Python, Go, SQL, Bash
Platform: Kubernetes, Docker, Terraform, GitHub Actions
Data: PostgreSQL, Redis, Kafka
Practice: Code review, Runbooks, Postmortems

LANGUAGES

French: native; **English**: fluent; **German**: intermediate
