Alex Example

Platform engineer: reliable services, clear operations, calm releases

e2e-alex@example.org +33 6 00 00 00 00 Lyon, France example.org/alex

PROFIL

Platform engineer who designs, ships and operates the services other teams build on. Turns fragile manual steps into automated, observable pipelines, and writes the runbook before the incident rather than after it.

RÉALISATIONS

- Moved release preparation into one automated pipeline
- Ran the on call rotation of the deployment platform
- Introduced typed contracts between teams

COMPÉTENCES CLÉS

- Service design
- Release engineering
- Observability
- Incident response
- Infrastructure as code
- Developer experience
- Technical writing
- Mentoring

EXPÉRIENCE

Senior Platform Engineer, Example Corp — février 2023 à aujourd'hui

Lyon, France

- Runs the deployment platform that every product team ships through, from the first commit to the production rollout.
- Replaced a hand kept release checklist with an automated pipeline that tests, packages and announces each release.
- Wrote the operating guides of the platform and trained the teams that took over its daily care.

Software Engineer, Sample Labs — septembre 2020 à janvier 2023

Grenoble, France

- Built the internal services of the measurement product.
- Moved the test suite to parallel runs.
- Wrote the first monitoring dashboards.

FORMATION

MSc Computer Science
Université Exemple
2018 à 2020

BSc Mathematics
Institut Échantillon
2015 à 2018

COMPÉTENCES TECHNIQUES

LANGUAGES

Python, Go, SQL, TypeScript

PLATFORM

Kubernetes, Terraform, PostgreSQL, Redis

OBSERVABILITY

Prometheus, Grafana, OpenTelemetry

PRACTICES

Code review, Runbooks, Postmortems

LANGUES

French: native **English**: fluent **German**: intermediate
